## HOUSE PASSES TAX MEASURE

Acts Favorably on Bill Drafted  
by Commission.

OBTAINED JUST ENOUGH VOTES

Provides That All Property Shall Be  
Listed at Its Full Value and Then  
Assessed at Forty Per Cent for the  
Purpose of Taxation—County As-  
sessor's Bill Killed by the House.

St. Paul, March 25.—With just sixty  
votes, the exact number needed, the  
house passed the bill introduced by J.  
A. Dalzell at the request of the tax  
commission requiring that all prop-  
erty shall be listed at its true value  
and assessed at 40 per cent for pur-  
poses of taxation. The bill originally  
read 50 per cent, and after an attempt  
to reamend it so as to make it 50 in-  
stead of 40, Dalzell turned against  
the bill and voted against it on the  
roll call.

The bill had been a special order  
last week and killed and reconsidered.  
D. A. Stuart of Windom again  
offered his amendment to assess farm  
property at 40 per cent, ore lands at  
60 per cent, and city property and  
personal property at 50 per cent. Stuart  
said that the country gets less  
benefit from the state tax than the  
cities and institution towns, including  
the state university and the state fair.

R. F. Grant said that fifty-nine  
counties of the state got back more  
from the state in the form of road and  
bridge appropriations and school ap-  
portionments than they pay the state  
in taxes. He said that the present  
law, which requires property to be as-  
sessed at 100 per cent, had been more  
grossly disobeyed in the country than  
in the city, and asked if they wanted  
to continue that as the amendment  
proposed. While it may be true that  
some of the rich escape, the amend-  
ment would tax rich and poor alike  
in the cities at higher rate than in  
the country.

Burdette Thayer again submitted his  
amendment to tax farm lands at 33  
per cent, but this was voted down and  
Stuart's amendment also, the vote on  
the later being 24 to 74.

County Assessors' Bill Killed.

The county assessors' bill was ar-  
gued for some time, but fell short of  
the necessary votes to pass it.

After having killed this bill the  
house killed the bill increasing the  
exemption on personal property from  
\$100 to \$200, but limiting it to \$200  
for the family instead of for each per-  
son as at present. The bill had a ma-  
jority of the votes cast, but not enough  
to pass it.

There are about 200 bills in the  
house which have been reported by  
committees and are awaiting consid-  
eration, yet the house does well if it  
disposes of half a dozen each day.  
New bills continue to come in, two  
dozen or more each day and commit-  
tees are sending them back to the  
house by the dozens every day. W. D.  
Washburn offered a resolution limit-  
ing the debate to only a fraction of  
what some of the members now use in  
talking on various matters. The resolu-  
tion was sent to the rules commit-  
tee.

A bill providing \$20,000 for an in-  
vestigation into the feasibility of the  
system of canals suggested by R. J.  
Hershon of Chicago was introduced in  
the house by L. C. Spooner of Morris.  
The bill makes the governor, state  
auditor and attorney general a board  
to carry out the work and directs them  
to engage three engineers for the  
work and to report plans and esti-  
mates of the cost to the next legisla-  
ture.

Oak Park Annexation Bill Passed.

The bill annexing Oak Park to the  
city of Stillwater, introduced in the  
senate by G. H. Sullivan and passed  
by that body, was passed in the house  
on motion of John Zelch to suspend  
the rules. The bill was amended in  
the house so as to make it satisfactory  
to the Oak Park people, who have  
previously voted down the proposition  
to annex themselves to the Bluff City.

A bill providing a board of public  
safety for cities of the first class was  
introduced in the house by H. N. Al-  
len of Minneapolis. It provides for a  
board of four members, not more than  
two of whom shall be of the same po-  
litical party, who shall have charge  
of the appointment of policemen.

A state supervisor of poor relief is  
provided in a bill introduced in the  
house by O. F. Christensen of St. Paul.  
The supervisor is to be appointed by  
the state board of visitors to state in-  
stitutions. He is to have general  
charge of contributions for relief of  
the suffering in cases of great calam-  
ities as well as during ordinary times.  
The retaliatory insurance law is  
proposed for this state in a bill intro-

duced in the house by Carl Wallace of  
Minneapolis. This law, which is in  
force in some states, provides that  
the insurance commissioner shall re-  
fuse a license to companies coming  
from states which have laws so  
stringent that the companies of this  
state cannot do business there.

The senate passed the bill giving  
\$500 additional state aid to graded  
schools which have two years' high  
school work. This was urged by  
Senator Bedford as another inducement  
to spread higher education in  
the country.

CLARK TALKS ON THE TARIFF

Minority Leader Discusses Measure in  
the House.

Washington, March 25.—Declaring  
among other things a mistake was  
made in the Payne tariff bill in not  
arranging the revision on the basis of  
raising revenue only on every item.  
Mr. Clark of Missouri, the minority  
leader, held the attention of the house  
for more than five hours in discussing  
the measure. Incidentally he pointed  
out that much time would have been  
saved in the consideration of the bill  
had the Democratic members of the  
committee been consulted about the  
various provisions of the proposed law.

Mr. Clark spoke in characteristic  
style and frequently moved the house  
to applause and laughter. At the con-  
clusion of his remarks he received an  
ovation from his Democratic col-  
leagues.

He was followed by Messrs. Wash-  
burn of Massachusetts and Adamson  
of Georgia, the former attacking the  
inheritance tax provision of the bill,  
while Mr. Adamson opposed the erec-  
tion of a tariff wall so high as to pre-  
vent the people of the United States  
buying in all the markets of the world  
as well as disposing of their surplus  
products.

## DECLARATION OF WAR SATURDAY

Hostilities Between Austria and  
Servia Inevitable.

Berlin, March 25.—A declaration of  
war between Austro-Hungary and  
Servia is expected on Saturday.

The utter failure to accept the Eng-  
lish proposal for an adjudication of  
the Bosnian dispute seems to have  
made war inevitable and all the Euro-  
pean powers are preparing for the  
expected hostilities.

The news of the war declaration  
came suddenly, for dispatches from  
Servia had been reporting a most pac-  
ific tone in the national assembly at  
Belgrade, where Premier Novakovich  
went so far as to make a conciliatory  
speech.

From Vienna had previously come  
the news of a pessimistic character,  
but it was believed the pessimism was  
based largely on surmise.

With the reports of war, however,  
it is learned that both Servia and Aus-  
tria are giving final orders for the  
advancement of more troops to the  
frontier and it is said that the decla-  
ration of hostilities will find King  
Peter at the head of an army of nearly  
200,000 men.

The Austrians are also prepared for  
war at a moment's notice, having a  
great part of their army already mo-  
bilized on the frontier with several  
divisions proceeding as reinforcements.

HEAVY RAINS IN AFRICA

Roosevelt Will Arrive There During  
the Wet Season.

Mombasa, B. E. A., March 25.—The  
heavy rains have begun in the pro-  
tectorate and Tuesday there was a  
precipitation of four inches in three  
hours. The grass fires, which lately  
had been destroying the prairies and  
driving the game in close to the rail-  
road line, were extinguished by the  
downpour.

The popular shooting season is at  
an end. The record for the four  
months shows the killing of 110 lions,  
including two man-eaters, and 3,000  
head of other game. During the season  
nine natives and four white men  
were mauled by lions.

George McMillan, nephew of the  
late Senator McMillan of Michigan,  
has returned to the protectorate from  
a tiger hunting trip in India. He left  
Mombasa for Ju Ja ranch, his property  
north of Nairobi, to make prepara-  
tions for the reception of Mr. Roose-  
velt.

The African Standard has published  
an eulogistic article welcoming Mr.  
Roosevelt. In it the former president  
of the United States is referred to as  
"the greatest Republican autocrat in  
history."

## IDENTIFIED BY WILLIE WHITLA

Prisoners at Cleveland Prove  
to Be Kidnappers.

MYSTERY SURROUNDS WOMAN

Declares That Her Identification  
Would Cause a Sensation in Sharon,  
Pa.—Woman Who Had Associated  
With the Pennsylvania Boy's Abduc-  
tors Commits Suicide on Street by  
Taking Morphine.

Cleveland, March 25.—Willie Whitla  
identified the man and woman held on  
suspicion by the Cleveland police as  
the persons who kidnapped him from  
the school at Sharon, Pa., last Thurs-  
day, and held him for the \$10,000 ran-  
som, which was paid by his father,  
Attorney James P. Whitla, Monday.

Willie said the man, who gave the  
name of James H. Boyle, was the one  
who took him from school and car-  
ried him through a tortuous route to  
Cleveland, then to Ashtabula, back to  
this city, and placed him in the house  
in the east end, where he was held  
until the money was paid. Willie  
also declared that the woman was the  
one who cared for him at the house  
where he was detained and who acted  
the part of a nurse.

Boyle said the woman is his wife.  
The police have no other identifica-  
tion of the couple than the names  
given. So far as the man is con-  
cerned, the police believe the name  
is correct. Boyle is said to reside in  
Sharon, and is a plumber by trade.  
He is said to have a widowed mother,  
four brothers and a sister.

The woman, who is accredited with  
being the wife of Boyle, declared soon  
after her arrest that her identification  
would cause a sensation in Sharon.

When the identification was com-  
pleted, Mr. Whitla would say nothing  
regarding the woman. He said he  
knew Boyle slightly.

Appeared Before Grand Jury.

Immediately after Willie Whitla  
had seen the man and woman at the  
central police station, they were taken  
to the county courthouse and there  
appeared before the grand jury. They  
were examined for the purpose of aid-  
ing the jury in its attempt to find an  
indictment against the two prisoners.  
The charge, under the laws of Ohio,  
against the man and woman, if an in-  
dictment is found, will be blackmail.  
This is based upon the payment of the  
\$10,000 ransom paid by Mr. Whitla.

As Boyle and his wife are held by  
the police on suspicion only, an indict-  
ment will afford a means of placing  
them under arrest formally and then  
they can be held indefinitely.

Immediately after leaving the grand  
jury room Mr. and Mrs. Whitla, Willie  
and the janitor of the Sharon school,  
which Willie attended, left for Sharon.  
As the prisoners have not waived  
extradition they will be held here for  
two or three days until the necessary  
papers for their removal to Sharon  
can be arranged between the govern-  
ors of Ohio and Pennsylvania.

The woman, whose actual identity  
is as much enshrouded in mystery as  
it was when she was arrested on sus-  
picion of being involved in the kid-  
napping of Willie Whitla, was the  
moving spirit in the famous case, the  
police charge. Beyond the assertion  
of Boyle that she is his wife not a  
word can be obtained to clear the sit-  
uation.

Sweated thoroughly by the police,  
the women beyond breaking down and  
giving way to tears, keeps her coun-  
sel.

Willie Identifies Woman.

"That is the woman who acted as  
the nurse," Willie Whitla said when  
first he saw "Mrs. Boyle."

"Hello, Willie," the woman ex-  
claimed, as she laid her hand upon the  
boy's head and for an instant fondly  
caressed him.

The woman and the boy met in the  
private office of Chief of Police Koh-  
ler. The boy established the connect-  
ing link between the mysterious woman  
and the offense.

Mrs. Boyle intimated several times  
that there would be a sensation in  
Sharon as soon as her real identity  
was made known. This assertion  
spurred the police to exhaust every ef-  
fort to find out who she is and what  
her Sharon connections are. After  
she had been seen by Attorney J. P.  
Whitla, father of Willie, the police  
were no nearer a solution of the mys-  
tery. Whitla proffered no information  
to the police. He refused to indicate  
whether he knew her or not.

A woman known as Mary Diener,  
who the police say may have been an  
associate of the kidnappers, or was  
implicated in the plot, committed sui-  
cide by drinking morphine. The woman  
drank the poison while standing in  
front of a drug store in the east

## Macpherson & Langford Suits

The best strictly tailored suits made

A display Friday and Saturday

Every lady who has worn a Macpherson & Langford skirt knows some-  
thing of the high class garment they produce. They have recently began  
the making of tailored suits and are producing garments of the highest  
order.

Their productions are characterized by their splendid fitting qualities,  
their beautiful lines and the workmanship is so thorough that the gar-  
ments retain their fine shape as long as they are worn.

Our special showing

We have a number of these suits that will be on display Friday and Sat-  
urday and we will be pleased to have our friends see them. It might  
be added that as these are high class suits that the prices range from  
\$40.00 to \$55.00.

end, not far from the house in which  
Willie Whitla was detained here. She  
died in an ambulance while being  
taken to a hospital.

It developed that this woman had  
been in the company of the Boyles in  
a saloon Tuesday night. Investiga-  
tion showed, however, that she was  
simply an innocent participant in the  
hospitality of the Boyles. It is be-  
lieved that fear for possible results  
of having been in the company of the  
alleged kidnappers caused the woman  
to do away with herself.

HARRIMAN HAS RHEUMATISM

Will Take the Baths at Paso Robles  
Hot Springs.

Santa Barbara, Cal., March 25.—E.  
H. Harriman has gone to Paso Robles  
to take the baths at the hot springs,  
which were beneficial to Admiral Rob-  
ley D. Evans, when he arrived with  
the Atlantic fleet on the Pacific coast

suffering from rheumatism. Mr. Har-  
riman is troubled with rheumatism,  
too, but his physician, Dr. Nixon, says  
that he is not ill, but simply desires  
to try the hot baths.

Mr. Harriman will remain in Paso  
Robles two or three days if his pre-  
sent plans be carried out. He will  
leave for New York, arriving there  
during the first week in April.

Bean Milk.

"Pigeon milk is a myth," said a milk-  
man, "but there actually is a bean  
milk. It is drunk, put in tea and cof-  
fee and even frozen for ice cream.  
The Japs are its inventors. This milk  
is made of the soja bean. The bean  
is first soaked, then boiled in water.  
After the liquid turns white, sugar and  
phosphate of potash are added, and the  
boiling is kept up till a substance of  
the thickness of molasses is obtained.  
Nobody could tell this bean milk from  
condensed milk, and when water is  
added it can't be told from the fresh.  
The Japanese poor use nothing else."

## AUTHORSHIP OF LETTER ADMITTED

Tilton, However, Says It Was  
a Little Strong.

Madison, Wis., March 25.—Lester  
Tilton of Neillsville, who was charged  
by Senator John Blaine with having  
received \$500 or more of the Stephen-  
son campaign fund, furnished the sen-  
sational part of the testimony at the  
senatorial primary inquisition when  
he denied that such an amount was  
offered by Stephenson agents as his  
campaign expenses if he would run  
for the assembly and promise to vote  
for Stephenson for United States  
senator.

However, Tilton admitted author-  
ship of a letter to John A. Aylward,  
Democratic candidate for governor,  
in which he told Aylward he had been  
offered financial support from "Steph-  
enson and the liquor interests."

After the letter was read, Tilton  
said it was a little "stronger" than he  
meant to have it understood, saying  
he merely had been offered money by  
C. M. Ring if he would "get out and  
hustle for Stephenson." No mention,  
he said, was made of his running for  
the assembly as a contingency.

John A. Aylward stated that in a  
conversation with Tilton the latter  
told him that Stephenson men had  
offered him first \$500, then \$1,000 and  
finally \$1,500 if he would run for the  
assembly and make the promise to  
support Stephenson for senator; and  
that he (Tilton) had refused. Mr.  
Aylward said he used this statement  
of Tilton's thereafter through the  
campaign and it had never been chal-  
lenged or contradicted by Tilton.

Tilton on being recalled to the stand  
still clung to his version of the af-  
fair.

MINING PROMOTER KILLED

Slayer Claims Victim Attacked His  
Wife.

Kansas City, Mo., March 25.—Leon  
H. Brady, a mining engineer, shot and  
killed Joseph E. Flanagan, a mining  
promoter. The shooting took place  
at the Brady home. Brady was taken  
into custody. He told the police that  
Flanagan attacked Mrs. Brady in the  
hall of their home. While Mrs. Brady  
was struggling to free herself, Flanagan  
ran to her aid and killed her.

Crisis in Germany.

Berlin, March 25.—Prince von Bu-  
low's coalition of the Conservative,  
Liberal and Radical parties apparent-  
ly has reached a fatal crisis over the  
scheme of financial reform. The Con-  
servatives are determined to carry  
through financial reform without con-  
sidering where they would get a ma-  
jority.

PORTO RICANS COMPLAIN

Claim Spain Ruled Better Than the  
United States.

Washington, March 25.—That Porto  
Rico was governed better under Span-  
ish rule than under American admin-  
istration, that the Spanish-American  
war and the consequent occupation of  
the island by the United States has  
ruined the coffee industry, the most  
important in the island, and that the  
executive council, composed largely of  
Americans, is responsible entirely for  
the present crisis, were the declara-  
tions made by Luis Muno Rivera,  
chairman of the commission, now  
here. The commission was appointed  
by the house of delegates to lay be-  
fore President Taft, congress and the  
American people the reasons for the  
existing conditions in the island and  
to ask for concessions from this coun-  
try, both in regard to the form of gov-  
ernment for the island and on the  
tariff proposition.

Commissioner Rivera claimed that  
all the Porto Ricans ask for is justice,  
and that the Americans are not giving  
them this. He said that the house of  
delegates has been made practically a  
nonentity by the executive council,  
corresponding to the upper house and  
that the upper body refused to listen  
to the house of delegates in the re-  
cent extraordinary session of the Por-  
to Rican congress called by Governor  
Post, even when the lower body was  
perfectly willing to make all neces-  
sary concessions in legislation.

FATAL HUNTING ACCIDENT

One Iowa Man Killed and Another  
Wounded.

Waterloo, Ia., March 25.—Ray Ferry  
of La Porte, Ia., was killed and Ar-  
thur Kline of La Porte was seriously  
wounded while returning from a duck  
hunt. They were crossing Cedar river  
at a ford on stones, Ferry using a  
shotgun as a cane to keep his balance.  
The gun exploded, killing Ferry and  
wounding Kline.

Declares That Her Identification  
Would Cause a Sensation in Sharon,  
Pa.—Woman Who Had Associated  
With the Pennsylvania Boy's Abduc-  
tors Commits Suicide on Street by  
Taking Morphine.

Cleveland, March 25.—Willie Whitla identified the man and woman held on suspicion by the Cleveland police as the persons who kidnapped him from the school at Sharon, Pa., last Thursday, and held him for the \$10,000 ransom, which was paid by his father, Attorney James P. Whitla, Monday.

Willie said the man, who gave the name of James H. Boyle, was the one who took him from school and carried him through a tortuous route to Cleveland, then to Ashtabula, back to this city, and placed him in the house in the east end, where he was held until the money was paid. Willie also declared that the woman was the one who cared for him at the house where he was detained and who acted the part of a nurse.

Boyle said the woman is his wife. The police have no other identification of the couple than the names given. So far as the man is concerned, the police believe the name is correct. Boyle is said to reside in Sharon, and is a plumber by trade. He is said to have a widowed mother, four brothers and a sister.

The woman, who is accredited with being the wife of Boyle, declared soon after her arrest that her identification would cause a sensation in Sharon.

When the identification was completed, Mr. Whitla would say nothing regarding the woman. He said he knew Boyle slightly.

Appeared Before Grand Jury.

Immediately after Willie Whitla had seen the man and woman at the central police station, they were taken to the county courthouse and there appeared before the grand jury. They were examined for the purpose of aiding the jury in its attempt to find an indictment against the two prisoners. The charge, under the laws of Ohio, against the man and woman, if an indictment is found, will be blackmail. This is based upon the payment of the \$10,000 ransom paid by Mr. Whitla.

As Boyle and his wife are held by the police on suspicion only, an indictment will afford a means of placing them under arrest formally and then they can be held indefinitely.

Immediately after leaving the grand jury room Mr. and Mrs. Whitla, Willie and the janitor of the Sharon school, which Willie attended, left for Sharon. As the prisoners have not waived extradition they will be held here for two or three days until the necessary papers for their removal to Sharon can be arranged between the governors of Ohio and Pennsylvania.

The woman, whose actual identity is as much enshrouded in mystery as it was when she was arrested on suspicion of being involved in the kidnapping of Willie Whitla, was the moving spirit in the famous case, the police charge. Beyond the assertion of Boyle that she is his wife not a word can be obtained to clear the situation.

Sweated thoroughly by the police, the women beyond breaking down and giving way to tears, keeps her counsel.

Willie Identifies Woman.

"That is the woman who acted as the nurse," Willie Whitla said when first he saw "Mrs. Boyle."

"Hello, Willie," the woman exclaimed, as she laid her hand upon the boy's head and for an instant fondly caressed him.

The woman and the boy met in the private office of Chief of Police Kohler. The boy established the connecting link between the mysterious woman and the offense.

Mrs. Boyle intimated several times that there would be a sensation in Sharon as soon as her real identity was made known. This assertion spurred the police to exhaust every effort to find out who she is and what her Sharon connections are. After she had been seen by Attorney J. P. Whitla, father of Willie, the police were no nearer a solution of the mystery. Willie proffered no information to the police. He refused to indicate whether he knew her or not.

A woman known as Mary Diener, who the police say may have been an associate of the kidnappers, or was implicated in the plot, committed suicide by drinking morphine. The woman drank the poison while standing in front of a drug store in the east

end, not far from the house in which Willie Whitla was detained here. She died in an ambulance while being taken to a hospital.

It developed that this woman had been in the company of the Boyles in a saloon Tuesday night. Investigation showed, however, that she was simply an innocent participant in the hospitality of the Boyles. It is believed that fear for possible results of having been in the company of the alleged kidnappers caused the woman to do away with herself.

HARRIMAN HAS RHEUMATISM

Will Take the Baths at Paso Robles Hot Springs.

suffering from rheumatism. Mr. Harriman is troubled with rheumatism, too, but his physician, Dr. Nixon, says that he is not ill, but simply desires to try the hot baths.

Mr. Harriman will remain in Paso Robles two or three days if his present plans be carried out. He will leave for New York, arriving there during the first week in April.

Bean Milk.

"Pigeon milk is a myth," said a milkman, "but there actually is a bean milk. It is drunk, put in tea and coffee and even frozen for ice cream. The Japs are its inventors. This milk is made of the soja bean. The bean is first soaked, then boiled in water. After the liquid turns white, sugar and phosphate of potash are added, and the boiling is kept up till a substance of the thickness of molasses is obtained. Nobody could tell this bean milk from condensed milk, and when water is added it can't be told from the fresh. The Japanese poor use nothing else."

## AUTHORSHIP OF LETTER ADMITTED

Tilton, However, Says It Was  
a Little Strong.

Madison, Wis., March 25.—Lester Tilton of Neillville, who was charged by Senator John Blaine with having received \$500 or more of the Stephenson campaign fund, furnished the sensational part of the testimony at the senatorial primary inquisition when he denied that such an amount was offered by Stephenson agents as his campaign expenses if he would run for the assembly and promise to vote for Stephenson for United States senator.

However, Tilton admitted authorship of a letter to John A. Aylward, Democratic candidate for governor, in which he told Aylward he had been offered financial support from "Stephenson and the liquor interests."

After the letter was read, Tilton said it was a little "stronger" than he meant to have it understood, saying he merely had been offered money by C. M. Ring if he would "get out and hustle for Stephenson." No mention, he said, was made of his running for the assembly as a contingency.

John A. Aylward stated that in a conversation with Tilton the latter told him that Stephenson men had offered him first \$500, then \$1,000 and finally \$1,500 if he would run for the assembly and make the promise to support Stephenson for senator; and that he (Tilton) had refused. Mr. Aylward said he used this statement of Tilton's thereafter through the campaign and it had never been challenged or contradicted by Tilton.

Tilton on being recalled to the stand still clung to his version of the affair.

MINING PROMOTER KILLED

Slayer Claims Victim Attacked His Wife.

Kansas City, Mo., March 25.—Leon H. Brady, a mining engineer, shot and killed Joseph E. Flanagan, a mining promoter. The shooting took place at the Brady home. Brady was taken into custody. He told the police Flanagan attacked Mrs. Brady in the hall of his home. While Mrs. Brady was struggling to free herself, Brady ran to her aid and killed Flanagan.

Crisis in Germany.

Berlin, March 25.—Prince von Bismarck's coalition of the Conservative, Liberal and Radical parties apparently has reached a fatal crisis over the scheme of financial reform. The Conservatives are determined to carry through financial reform without considering where they would get a majority.

PORTO RICANS COMPLAIN

Claim Spain Ruled Better Than the United States.

Washington, March 25.—That Porto Rico was governed better under Spanish rule than under American administration, that the Spanish-American war and the consequent occupation of the island by the United States has ruined the coffee industry, the most important in the island, and that the executive council, composed largely of Americans, is responsible entirely for the present crisis, were the declarations made by Luis Muno Rivera, chairman of the commission, now here. The commission was appointed by the house of delegates to lay before President Taft, congress and the American people the reasons for the existing conditions in the island and to ask for concessions from this country, both in regard to the form of government for the island and on the tariff proposition.

Commissioner Rivera claimed that all the Porto Ricans ask for is justice, and that the Americans are not giving them this. He said that the house of delegates has been made practically a nonentity by the executive council, corresponding to the upper house and that the upper body refused to listen to the house of delegates in the recent extraordinary session of the Porto Rican congress called by Governor Post, even when the lower body was perfectly willing to make all necessary concessions in legislation.

FATAL HUNTING ACCIDENT

One Iowa Man Killed and Another Wounded.

Waterloo, Ia., March 25.—Ray Ferry of La Porte, Ia., was killed and Arthur Kline of La Porte was seriously wounded while returning from a duck hunt. They were crossing Cedar river at a ford on stones, Ferry using a shotgun as a cane to keep his balance. The gun exploded, killing Ferry and wounding Kline.

The passenger train from the twin  
cities was nearly an hour late last  
night, the delay having been caused by  
a collision between a switch engine and  
a trolley car at 25th avenue, Minne-  
apolis. The track was blocked and the  
train had to go back and come over the  
Great Northern tracks. The report is  
that the motor man on the street car  
was injured slightly in the collision.

H. F. Thomas, of the Pence Auto  
Co., of Minneapolis, was in the city yester-  
day and placed the agency of the  
Buick automobiles with Smith Bros. of  
this city. While here Mr. Thomas, as-  
sisted by Mr. Ezra Smith landed orders  
for four fine cars to be added to Brainerd's  
"auto fleet." Geo. D. LaBar, F.  
A. Farrar and Dr. J. L. Fredericks each  
got a fine 40 horse power five passen-  
ger touring car, while Smith Brothers  
got an up-to-date runabout.

W. H. Gemmell, general manager of  
the Minnesota & International railroad,  
was in the city yesterday and today go-  
ing to St. Paul on this afternoon's  
train. When seen by a Dispatch re-  
presentative he stated that there was  
nothing definite as yet on the proposed  
additional service on that road. Busi-  
ness conditions, he said, were such as  
to compel careful scanning of expendi-  
tures. The revival of business prophe-  
sied has not arrived, he said, though  
he believed that it would do so during  
the summer.

Hess & Cochran's barber shop is to  
be made one of the most up to date in  
this section. They will move into the  
vacant store room in the Sleeper block,  
as soon as the material for their place  
arrives, and the room in the basement  
of the First National bank building so  
long occupied by Mr. Cochran and his  
associates will be fitted with a tile  
floor and marble base and will be en-  
tirely redecorated. There will be new  
bath rooms put in and the firm is  
contemplating putting in new fixtures.  
The men who will do the work state  
that they will not have to be out of  
the old location more than ten  
days but they are not betting on that.

### ONCE A COWBOY.

Taft's Secretary of Interior a Son of  
the Western Plains.

From cow puncher in southwestern  
Kansas to the position of secretary of  
the Interior is a far cry, but that is the  
range of the career of Richard A. Bal-  
linger of the state of Washington, for-  
mer commissioner of the general land  
office, ex-mayor of Seattle and until  
recently vice president of the Alaska-  
Yukon-Pacific exposition. A remark-  
able coincidence is that he succeeds  
James R. Garfield, his classmate in  
Williams college, who afterward made  
him general land commissioner.

The interesting phases of Mr. Ballin-  
ger's frontier career are being told in  
his own words. He said:

We were living at Verdun, Ill., and in  
1873, when I was fifteen years of age, my  
father, who had served through the civil  
war, being mustered out as colonel in the  
Third Illinois regiment, took up a sol-  
dier's homestead near Larned, Kan., and,  
as that was then in the heart of the cat-  
tle country, I soon became a cowboy.

On one occasion it was necessary to  
take a ride of seventy-five miles alone  
across the plains to Larned, and I was  
compelled to pass the night on the Rat-  
lesnake creek, which was properly named.  
Before I could go to sleep I had killed  
three rattlers.

My most memorable experience as rider  
on the plains came when a wild horse  
got the better of me. That was at Spring  
creek. I got the thong rope over the ani-  
mal's head all right and managed to get  
him up to the snubbing post, where the  
horses are branded. Gradually I worked  
up to the untamed animal until I was  
within ten feet of it. With a motion as  
quick as lightning—so it seemed to me—  
the horse raised itself on its hind legs  
and struck me to the earth. When I  
came to the horse was gone and I needed  
medical attention.

While I was on the range I rode sev-  
enty miles every Sunday to recite Latin  
to the steward at Fort Larned, where  
several companies of soldiers were sta-  
tioned. My ambition was to go to college  
as soon as I could, and I spent three  
years at the State University of Kansas  
and at Washburn college at Topeka.

Mr. Ballinger was deputy clerk and  
afterward deputy treasurer of Pawnee  
county, Kan., for two years.

While at Washburn, Mr. Ballinger  
met Senator John J. Ingalls, who ad-  
vised him to take a course at Williams  
college, in Massachusetts. He did this  
and was graduated with the class of  
1884, of which James R. Garfield was  
a member.

### CARROT TOPS NOT JOKES.

Red Headed Students Organize to  
Demonstrate Their Dignity.

Joshing folks simply because they  
happen to be crowned with red hair  
has ceased to be a joke. The seventy-  
five red headed students at the Univer-  
sity of Minnesota have formed a soci-  
ety the object of which is to abolish  
all bantering about the color of their  
locks.

Under the general classification red  
headed are included persons with car-  
rot, cherry or auburn colored hair. The  
college daily devotes a column to the  
new society.

It is pointed out that the red haired  
joke has been barred by age, and the  
society members swear they will have  
nothing to do with any one who  
springs it. A large carrot is suggested  
as the best badge of the club.

### LINCOLN'S DOUBLE.

Daniel Walford's Strong Resemblance  
to the Martyred President.

Daniel Walford, who recently died  
at the home of his daughter in New  
York city, in his younger days bore a  
remarkable resemblance to Abraham  
Lincoln.

Mr. Walford, who was eighty-six  
years old, was born in Gloucestershire,  
England, and was six feet two and a  
half inches tall. He had the same  
slightly stooping shoulders and large  
frame, the same melancholy eyes and  
sad but winning smile that the mar-  
tyred president had. His mouth was  
strikingly similar to Lincoln's.

Mr. Walford was an ardent supporter  
of the temperance cause all his life.  
Once in 1854 he was delivering a lec-  
ture in the Bowery mission, at New  
York, on this subject when some one  
informed him that "his brother" was  
in the back of the hall. This "brother"  
turned out to be Abraham Lincoln,  
who, being on a visit to New York,  
had gone to the mission with friends.  
When the two men met Lincoln said,  
"Walford, you couldn't look any more  
like me unless you were me."

They became fast friends, the friend-  
ship continuing until the president's  
death. President Lincoln gave Mr.  
Walford a model of his hand, which  
the latter carefully preserved.

#### The Goats of Asia Minor.

The goat more than any other factor  
has assisted the rural inhabitants of  
Asia Minor to destroy the magnificent  
forests which once extended from  
Smyrna through to Konia, the ancient  
capital of Karamania. Not only have  
the peasants and nomads destroyed the  
timber for the sake of firewood, but  
they destroyed it also in order that  
their goats might obtain suitable pas-  
ture. And the goats in their turn pre-  
vented the new shoots ever from re-  
placing the trees which had been cut  
down.

#### Near Death in Big Pond

It was a thrilling experience to Mrs.

The passenger train from the twin cities was nearly an hour late last night, the delay having been caused by a collision between a switch engine and a trolley car at 25th avenue, Minneapolis. The track was blocked and the train had to go back and come over the Great Northern tracks. The report is that the motor man on the street car was injured slightly in the collision.

H. F. Thomas, of the Pence Auto Co., of Minneapolis, was in the city yesterday and placed the agency of the Buick automobiles with Smith Bros. of this city. While here Mr. Thomas, assisted by Mr. Ezra Smith landed orders for four fine cars to be added to Brainerd's "auto fleet." Geo. D. LaBar, F. A. Farrar and Dr. J. L. Fredericks each got a fine 40 horse power five passenger touring car, while Smith Brothers got an up-to-date runabout.

W. H. Gemmell, general manager of the Minnesota & International railroad, was in the city yesterday and today going to St. Paul on this afternoon's train. When seen by a Dispatch representative he stated that there was nothing definite as yet on the proposed additional service on that road. Business conditions, he said, were such as to compel careful scanning of expenditures. The revival of business prophesied has not arrived, he said, though he believed that it would do so during the summer.

Hess & Cochran's barber shop is to be made one of the most up to date in this section. They will move into the vacant store room in the Sleeper block, as soon as the material for their place arrives, and the room in the basement of the First National bank building so long occupied by Mr. Cochran and his associates will be fitted with a tile floor and marble base and will be entirely redecorated. There will be new bath rooms put in and the firm is contemplating putting in new fixtures. The men who will do the work state that they will not have to be out of the old location more than ten days but they are not betting on that.

**ONCE A COWBOY.**

Taft's Secretary of Interior a Son of the Western Plains.

From cow puncher in southwestern Kansas to the position of secretary of the interior is a far cry, but that is the range of the career of Richard A. Ballinger of the state of Washington, former commissioner of the general land office, ex-mayor of Seattle and until recently vice president of the Alaska-Yukon-Pacific exposition. A remarkable coincidence is that he succeeds James R. Garfield, his classmate in Williams college, who afterward made him general land commissioner.

The interesting phases of Mr. Ballinger's frontier career are being told in his own words. He said:

We were living at Verdun, Ill., and in 1873, when I was fifteen years of age, my father, who had served through the civil war, being mustered out as colonel in the Third Illinois regiment, took up a soldier's homestead near Larned, Kan., and, as that was then in the heart of the cattle country, I soon became a cowboy.

On one occasion it was necessary to take a ride of seventy-five miles alone across the plains to Larned, and I was compelled to pass the night on the Rattlesnake creek, which was properly named. Before I could go to sleep I had killed three rattlers.

My most memorable experience as rider on the plains came when a wild horse got the better of me. That was at Spring creek. I got the thong rope over the animal's head all right and managed to get him up to the snubbing post, where the horses are branded. Gradually I worked up to the untamed animal until I was within ten feet of it. With a motion as quick as lightning—so it seemed to me—the horse raised itself on its hind legs and struck me to the earth. When I came to the horse was gone and I needed medical attention.

While I was on the range I rode seventy miles every Sunday to recite Latin to the steward at Fort Larned, where several companies of soldiers were stationed. My ambition was to go to college as soon as I could, and I spent three years at the State University of Kansas and at Washburn college at Topeka.

Mr. Ballinger was deputy clerk and afterward deputy treasurer of Pawnee county, Kan., for two years.

While at Washburn, Mr. Ballinger met Senator John J. Ingalls, who advised him to take a course at Williams college, in Massachusetts. He did this and was graduated with the class of 1884, of which James R. Garfield was a member.

**CARROT TOPS NOT JOKES.**

Red Headed Students Organize to Demonstrate Their Dignity.

Joshing folks simply because they happen to be crowned with red hair has ceased to be a joke. The seventy-five red headed students at the University of Minnesota have formed a society the object of which is to abolish all bantering about the color of their locks.

Under the general classification red headed are included persons with carrot, cherry or auburn colored hair. The college daily devotes a column to the new society.

It is pointed out that the red haired joke has been barred by age, and the society members swear they will have nothing to do with any one who springs it. A large carrot is suggested as the best badge of the club.

**LINCOLN'S DOUBLE.**

Daniel Walford's Strong Resemblance to the Martyred President.

Daniel Walford, who recently died at the home of his daughter in New York city, in his younger days bore a remarkable resemblance to Abraham Lincoln.

Mr. Walford, who was eighty-six years old, was born in Gloucestershire, England, and was six feet two and a half inches tall. He had the same slightly stooping shoulders and large frame, the same melancholy eyes and sad but winning smile that the martyred president had. His mouth was strikingly similar to Lincoln's.

Mr. Walford was an ardent supporter of the temperance cause all his life. Once in 1854 he was delivering a lecture in the Bowery mission, at New York, on this subject when some one informed him that "his brother" was in the back of the hall. This "brother" turned out to be Abraham Lincoln, who, being on a visit to New York, had gone to the mission with friends. When the two men met Lincoln said, "Walford, you couldn't look any more like me unless you were me."

They became fast friends, the friendship continuing until the president's death. President Lincoln gave Mr. Walford a model of his hand, which the latter carefully preserved.

# ENTERTAINED THE BUSINESS MEN

30 Business and Professional Men Guests of Y. M. C. A. Tuesday Evening

## CONDITIONS ARE SET FORTH

### State Secretary Gave Illustrated Talk on the Work of the Association

Thirty of the leading business and professional men of Brainerd were entertained at supper last night at the Y. M. C. A. rooms, to meet E. W. Peck, the state secretary of the association. An excellent supper provided by the Ladies' Auxiliary was enjoyed, after which Mr. Peck addressed the gathering, illustrating the address with lantern pictures of the various buildings erected by the association and the work done in other places, both at home and abroad. The talk was very interesting and held the attention of the gentlemen present closely.

At the close of Mr. Peck's talk H. F. Michael, president of the local association, stated the financial conditions which confronted the association, and showed by comparison with other association reports that the association here was caring for more than the average membership of towns averaging this size and on considerable less than the average expense. He showed that nowhere does the work sustain itself entirely by the membership fees and that it could not be expected to do here. He said that of three things must be done—the necessary additional expense must be met by contributions so that the association could meet its bills promptly; the expenses must be cut, which would mean half doing the work, or the rooms must be closed. The directors had willingly given their time and of their money to the work and were willing to continue to do so if the business men of the city and other citizens wanted them to do so, but they did not wish to force an institution upon the people which they did not want. Mr. Peck then gave a brief talk, asking the business men if they could afford, in view of the work being done here and elsewhere by the association, from any standpoint to let Brainerd's association either go to the wall or be crippled by lack of necessary funds.

No attempt was made to secure subscriptions at the meeting, but Mr. Peck and some of the others interested in the association will make a canvass of the city in the matter. Those present, after the address expressed themselves privately as of the belief that the institution should be given a hearty support.

A tickling or dry cough can be quickly loosened with Dr. Shoop's Cough Remedy. No opium, no chloroform, nothing unsafe or harsh. Sold by H. P. Dunn. t t f

### Success.

H. P. Dunn the enterprising druggist rather than await the ordinary methods of introduction, urged the Dr. Howard Co., to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

In addition to selling a 50c bottle of Dr. Howard's specific for 25c, H. P. Dunn has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally when there is constipation, specks before the eyes, tired feeling, giddiness, bad taste in the mouth, coated tongue, heart burn, sour stomach, roaring or ringing in the ears, melancholy and liver troubles, Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

This latest achievement of science is of great value in curing sick headache. Thousand of women are today free from that painful disease solely through the use of this specific.

Preventives—those Candy Cold Cure Tablets—will safely and quickly check all colds and the Grip. Try them once and see! 48-25c. Sold by H. P. Dunn. t t f

### Notice to Contractors

Sealed proposals for bids will be received by the board of education of the Brainerd school district at the office of the secretary, 618 Front street, Brainerd, Minn., up to the hour of 7 o'clock p. m. of April 5th, 1909, for the furnishing and supplying of the requisite labor and material for construction of an air duct in the Lowell school Building, as per the plans and specifications now on file at the office of the secretary of said board of education.

The board reserves the right to reject any or all bids.

L. F. HOHMAN,  
4t Secretary.

Don't drug the Stomach, or stimulate the Heart or Kidneys. That is wrong. It is the weak nerves that are crying out for help. Vitalize these weak inside controlling nerves with Dr. Shoop's restorative and see how quickly good health will come to you again. Test it and see! Sold by H. P. Dunn. t t f

### Ward Caucuses Tonight

The Republican ward caucuses which will elect delegates to the city convention will be held this evening at 7:30 o'clock at the following places:

First Ward—Gardner building, Sixth street south.  
Second Ward—Court House.  
Third Ward—Hose house.  
Fourth Ward—Hose house.  
Fifth Ward—Sleeper building, Front street.

In addition to the delegates to the city convention each ward will place in nomination two candidates for aldermen.

## A Hardwood Floor of any Color You may Choose for \$2.50

Floors which are in too poor condition to be improved with varnish alone can be made to imitate a genuine hardwood floor with this new patented Graining System.

This process does not require the services of a professional wood finisher.

The Graining Tool takes the place of skill and can be successfully used by the inexperienced man or woman, thus making it possible for any one at a very slight expense to enjoy the luxury of a new hardwood floor.

This Graining Compound when protected by one or two coats of Chit-Namel produces a surface that will outwear any ordinary varnished floor, many times over.

### Astounding Vitality of the Turtle.

The vitality of this strange sea creature, the turtle, after decapitation is almost beyond belief. A large turtle was once sent to a hotel in Newcastle. The chef cut the turtle's head off and hung the body upside down to bleed. Twenty-four hours after that turtle knocked down a man cook with one blow of its fin. The green turtle is not a vicious creature to handle, like its snapping Japanese brother, but its fins are very strong, and one blow from them is quite sufficient to break a man's arm.—Wide World Magazine.

## ENTERTAINED THE BUSINESS MEN

30 Business and Professional Men Guests of Y. M. C. A. Tuesday Evening

## CONDITIONS ARE SET FORTH

State Secretary Gave Illustrated Talk on the Work of the Association

Thirty of the leading business and professional men of Brainerd were entertained at supper last night at the Y. M. C. A. rooms, to meet E. W. Peck, the state secretary of the association. An excellent supper provided by the Ladies' Auxiliary was enjoyed, after which Mr. Peck addressed the gathering, illustrating the address with lantern pictures of the various buildings erected by the association and the work done in other places, both at home and abroad. The talk was very interesting and held the attention of the gentlemen present closely.

At the close of Mr. Peck's talk H. F. Michael, president of the local association, stated the financial conditions which confronted the association, and showed by comparison with other association reports that the association here was caring for more than the average membership of towns averaging this size and on considerable less than the average expense. He showed that nowhere does the work sustain itself entirely by the membership fees and that it could not be expected to do here. He said that of three things must be done—the necessary additional expense must be met by contributions so that the association could meet its bills promptly; the expenses must be cut, which would mean half doing the work, or the rooms must be closed. The directors had willingly given their time and of their money to the work and were willing to continue to do so if the business men of the city and other citizens wanted them to do so, but they did not wish to force an institution upon the people which they did not want. Mr. Peck then gave a brief talk, asking the business men if they could afford, in view of the work being done here and elsewhere by the association, from any standpoint to let Brainerd's association either go to the wall or be crippled by lack of necessary funds.

No attempt was made to secure subscriptions at the meeting, but Mr. Peck and some of the others interested in the association will make a canvass of the city in the matter. Those present, after the address expressed themselves privately as of the belief that the institution should be given a hearty support.

A tickling or dry cough can be quickly loosened with Dr. Shoop's Cough Remedy. No opium, no chloroform, nothing unsafe or harsh. Sold by H. P. Dunn.

## Success.

H. P. Dunn the enterprising druggist rather than await the ordinary methods of introduction, urged the Dr. Howard Co., to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half price.

In addition to selling a 50c bottle of Dr. Howard's specific for 25c, H. P. Dunn has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally when there is constipation, specks before the eyes, tired feeling, giddiness, bad taste in the mouth, coated tongue, heart burn, sour stomach, roaring or ringing in the ears, melancholy and liver troubles, Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

This latest achievement of science is of great value in curing sick headache. Thousand of women are today free from that painful disease solely through the use of this specific.

Preventics—those Candy Cold Cure Tablets—will safely and quickly check all colds and the Grip. Try them once and see! 48-25c. Sold by H. P. Dunn. t t f

The vitality of this strange sea creature, the turtle, after decapitation is almost beyond belief. A large turtle was once sent to a hotel in Newcastle. The chef cut the turtle's head off and hung the body upside down to bleed. Twenty-four hours after that turtle knocked down a man cook with one blow of its fin. The green turtle is not a vicious creature to handle, like its snapping Japanese brother, but its fins are very strong, and one blow from them is quite sufficient to break a man's arm.—Wide World Magazine.

# RICH LUMBERMAN KILLED

Man Who Did the Shooting Surrenders to Officers.

Pine Bluff, Ark., March 23.—D. Henry Duncan, vice president of the Bluff City Lumber company and one of the wealthiest men of this state, was shot and killed at Clio, where one of the plants of the corporation is located, by John Day, master mechanic of the Clio mill. Day, who surrendered immediately after the shooting, it is stated, asserts that he acted in self defense. So far as can be ascertained, there were no witnesses to the shooting.

It is thought probable an argument resulted between the men because of the fact that Day had been asked to tender his resignation.

Biggs—Shortleigh is a cheerful chap—never borrows trouble.

Diggs—Oh, well, I suppose he has to draw the line somewhere.

## A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merit, and made them *Medicines of Known Composition*.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomachs, biliousness and all catarrhal diseases wherever located, have printed upon it in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

Anthracite Miners Not Likely to Quit Work.

## REAFFIRM THEIR DEMANDS

Employees Stand by the Terms They Have Presented to the Operators. Vote to Remain at Work After the First of April and to Allow District Executive Boards to Negotiate Terms With Employers.

Seranton, Pa., March 25.—Reaffirming the demands already presented to the operators, the anthracite miners voted to remain at work after April 1, allowing the district executive boards of the hard coal fields of Pennsylvania to continue their efforts to get an agreement satisfactory to the men. The miners were instructed by the convention to continue at work until such time as they are otherwise notified by the official representatives of the three anthracite districts, and the executive boards were instructed to negotiate an agreement upon such basis as the boards in their judgment believe the conditions warrant.

The convention was called upon to act on a resolution looking to arbitration as a final solution if the men and their employers cannot agree. The resolution was introduced by a district officer and in substance asked President Taft to create a committee similar to the one appointed by President Roosevelt in 1902. A heated debate followed with the result that the resolution was referred to the three executive boards. Nearly all the leaders were against it and it may never be put into effect by the boards.

While a suspension of coal mining on the part of the men has been avoided for the present, there is still a possibility of a strike, but it is remote. The report of the special committee instructing the three executive boards as to what policy to pursue gives the boards wide latitude and permits them to make any concessions they deem necessary.

President Lewis leaves for Indianapolis today and it is probable a conference with the operators will be held next week, either in Philadelphia or in New York.

## OPPORTUNITY FOR GRAFT

New York Police Commissioner Could Easily Get Rich.

New York, March 25.—A dishonest man holding the position of police commissioner in New York city easily might become a millionaire in a few months so great are the opportunities for illicit gains, according to a statement made by Commissioner Bingham.

During Mr. Bingham's first year in the office, he said, a single bribe of \$600,000 a year was offered him if he would protect certain criminal interests. "Compliance with the conditions of the offer," he added, "would have been entirely of a negative matter—all they wanted was to be let alone."

Commissioner Bingham was worked up over the refusal of the city aldermen to vote him an appropriation of \$100,000 for a secret service to investigate Black Hand crimes and other matters.

## SHOCKING CRIME REPORTED

Father Alleged to Have Cremated His Child.

Winnipeg, Man., March 25.—A shocking crime has been reported to the police authorities of Saskatchewan from a Galician settlement near Buchanan. A widower desired to marry a young girl, but she told him he must get rid of his two children, both little girls, eight and four years of age. The elder one overheard her father talking with his prospective bride that night, by which she learned her sister and herself were to be burned up in a large clay oven commonly used by these people. The elder girl escaped to neighbors, where she told her story. Her sister has disappeared, just where no one knows.

# RACERS MAKE FAST TIME

Break World's Records at Daytona Beach Tournament.

Daytona, Fla., March 25.—A fast course, large attendance, a stiff southern breeze blowing up the course, and the shattering of world's records in automobile, motorcycle and bicycle events characterized the second day's Daytona beach tournament. The first event, a half-mile dash bicycle race, flying start, was won by Fogler in 47½ seconds, with Mitten and Root second and third, respectively. In a five-mile motorcycle record trial Walter Goerke made the distance in 3:30½, establishing a new world's record.

The first heat in the invitation race for five miles in which Robertson, De Palma and Fitzpatrick were entered, was won by the huge Benz driven by Robertson in 2:45½, breaking the world's record for gasoline cars held by Lancia in a 100-horsepower Fiat, of 2:54½.

The five-mile Southern Price and Horsepower handicap, with five cars entered, was won by Augustus Grojean, in a Pope-Hartford; James McLaughlin, in a Cleveland, was second, and George Robertson, Locomobile, third. No time was taken. Bruce Brown, the amateur at the wheel of the Benz car, and Ralph de Palma, driving a Fiat Cyclone, had a thrilling race at ten miles, Benz winning in the wonderful time of 5:14½. The previous world's straightaway ten-mile record was 6:15, made by Arthur McDonald in a 90-horsepower Daimler.

In a two-mile bicycle open race, Fogler won in the fast time of 3:45, lowering the two mile straight record.

## DISPUTE WITH NICARAGUA

Expected to Resolve Itself Into a Single Question.

Washington, March 25.—Predictions in responsible quarters indicate that the controversy with Nicaragua over the Emery claim would within a short time resolve itself into a single question. Just what this was was not disclosed, but is believed to have reference to the manner and by whom the amount of damages to be awarded the company resulting from the annulment of its concession by Nicaragua would be determined.

So far as the belligerent attitude of President Zelaya is concerned no serious fear is felt in Washington that there will be developments that will seriously change the situation in Central America. The presence of American war vessels in the Gulf of Fonseca is regarded as an assurance that there is not apt to be any hostile demonstration against Salvador or others of Nicaragua's neighbors. Nicaragua's military activity continues in the Gulf of Fonseca, where she has a gunboat.

# DOZEN KILLED BY A TORNADO

Score of Other Persons Badly Injured in Texas.

## SMALL TOWNS ARE DAMAGED

None of Them Entirely Destroyed, But Each Suffered Severely—Property Loss Reaches Into the Thousands of Dollars—Greatest Loss of Life Occurs in Country Districts. Disastrous Storm in Colorado.

Dallas, Tex., March 25.—Twelve known dead, property loss reaching into the thousands of dollars and possibly a score injured, is the result of a tornado which swept over the north-eastern part of Wise county. Several small towns were visited by the storm, but none were entirely destroyed, although each suffered serious damage.

The greatest loss of life occurred in the country districts. The destruction of one farmhouse alone caused the death of eight persons. This single tragedy of the storm occurred near Slidell. The farmhouse of Ira Rice was crushed in by the furious wind and the family of eight members pinned beneath the wreckage. The ruins became ignited and, fanned by the strong wind, the flames snuffed out the lives of the helpless victims.

The towns of Sanger and Greenwood were hit and a number of houses were moved from their foundations.

At Crafton every business house save one was blown down.

At Dan, also in Wise county, near Slidell, several houses were destroyed.

Several residences and two churches were blown down at Brumlow.

Heavy sand storms were reported at Dublin, Gainesville and other points in that vicinity.

## HEAVY DAMAGE IN DENVER

Snow Breaks Wires and Cuts Off Communication.

Denver, March 25.—Eight inches of wet, clinging snow, following several hours of steady rain, did damage in Denver estimated at from \$200,000 to \$300,000 and cut off all communication with the outside world so completely that it has not been fully restored. Every wire of the Western Union and Postal Telegraph companies, every toll line of the telephone company, was carried down by the heavy snow, along with hundreds of poles. The city's fire alarm system was almost destroyed, 6,000 telephone wires in the city were rendered useless and hundreds of trees in the parks and along the boulevards were badly damaged. For several hours street car service was at a standstill. Suburban electric lines were put out of commission, and trains on all railroads were many hours late.

Many small fires were caused by broken and crossed wires.

## NO FATALITIES OCCURRED

Tornado Unroofs Houses in Western Kansas.

Topeka, Kan., March 25.—The storm of snow and sleet which swept across Colorado and Western Kansas, assumed the proportions of a tornado near Edson, Sherman county. Nine cars of a freight train of the Rock Island road were blown from the track between Edson and Brewster, ten miles west. Houses in both towns were unroofed, but no fatalities occurred.

It is rumored that District Attorney Jerome would investigate the charges made by Mr. Bingham.

## DOZEN KILLED BY A TORNADO

Score of Other Persons Badly Injured in Texas.

### SMALL TOWNS ARE DAMAGED

None of Them Entirely Destroyed, But Each Suffered Severely—Property Loss Reaches Into the Thousands of Dollars—Greatest Loss of Life Occurs in Country Districts. Disastrous Storm in Colorado.

Dallas, Tex., March 25.—Twelve known dead, property loss reaching into the thousands of dollars and possibly a score injured, is the result of a tornado which swept over the northeastern part of Wise county. Several small towns were visited by the storm, but none were entirely destroyed, although each suffered serious damage.

The greatest loss of life occurred in the country districts. The destruction of one farmhouse alone caused the death of eight persons. This single tragedy of the storm occurred near Slidell. The farmhouse of Ira Rice was crushed in by the furious wind and the family of eight members plumed beneath the wreckage. The ruins became ignited and, fanned by the strong wind, the flames snuffed out the lives of the helpless victims.

The towns of Sanger and Greenwood were hit and a number of houses were moved from their foundations.

At Crafton every business house save one was blown down.

At Dan, also in Wise county, near Slidell, several houses were destroyed.

Several residences and two churches were blown down at Brumlow.

Heavy sand storms were reported at Dublin, Gainesville and other points in that vicinity.

### HEAVY DAMAGE IN DENVER

Snow Breaks Wires and Cuts Off Communication.

Denver, March 25.—Eight inches of wet, clinging snow, following several hours of steady rain, did damage in Denver estimated at from \$200,000 to \$300,000 and cut off all communication with the outside world so completely that it has not been fully restored. Every wire of the Western Union and Postal Telegraph companies, every toll line of the telephone company, was carried down by the heavy snow, along with hundreds of poles. The city's fire alarm system was almost destroyed, 6,000 telephone wires in the city were rendered useless and hundreds of trees in the parks and along the boulevards were badly damaged. For several hours street car service was at a standstill. Suburban electric lines were put out of commission, and trains on all railroads were many hours late.

Many small fires were caused by broken and crossed wires.

### NO FATALITIES OCCURRED

Tornado Unroofs Houses in Western Kansas.

Topeka, Kan., March 25.—The storm of snow and sleet which swept across Colorado and Western Kansas, assumed the proportions of a tornado near Edson, Sherman county. Nine cars of a freight train of the Rock Island road were blown from the track between Edson and Brewster, ten miles west. Houses in both towns were unroofed, but no fatalities occurred.

### An Iron Tip.

"Now, boys," said the teacher, "can any of you tell me how iron was first discovered?"

A hand shot up.

"Yes, sir!" cried Thompson.

"Well, Thompson, just tell the class what your information is on that point."

"Please sir," replied the scholar, "I heard father say yesterday they smelt it!"
